

ad hoc Trash Committee Meeting of December 19, 2011

Proposed Minutes

Members committee: Jim Derr, Mike Wilcox, Jeff Williams
David Garner, Judy Zahora

Called to order 3:30

Old Business

1. The primary business for the Committee was to confirm the steps necessary to implement the new trash contract.
 - ▲ Borough Ordinance will have to be changed to reflect hauler-owned tote and once a week schedule.
2. The Committee has reported back to Council that we believe there can be tighter monitoring of hauler performance. We advise more frequent regular meetings with the Hauler in order to address quality issues in a more timely manner.
3. The Committee invites clearer feedback from Borough Council on priorities for the Committee.
 - ▲ There was some re-organization of Public Works as a result of the last budget process. We want to review how this affects Trash & environmental issues.
 - ▲ The Committee has reviewed Trash account financial statements only in the recent past. We will try to continue to review the trash account.
4. The recently contracted Recycling Coordinator Consultant provided the background work to help the Borough's Grants Coordinator apply for public environmental education funds. This type of service was an objective of contracting this work to a specialist.

The next meeting is January 23th 2011
