

The Borough of Pottstown will begin delivering new recycling containers on Monday, December 15, 2008. All residential properties will receive a larger container that can be used starting January 2, 2009. The new containers will be placed at the front of each property. The delivery of all containers is expected to take 7-8 working days. Please place your container out for pick-up the night before at your normal pick-up location.

An informational card will be attached to each container to explain what items can be recycled. The Borough's Newsletter will have additional information on the new Refuse, Recycling and Yard Material Collection and Disposal Contract for the next three years starting in 2009. Additional information will also be available on the Borough's web site at www.pottstown.org/services.

With the new container, residents will be able to recycle additional items, help to save valuable space in landfills, and provide raw material for new products.

Please contact the Public Works Office at 610-970-6527 with any questions.
