The Borough shall maintain a record of all costs including, but not limited to, engineering, legal and administration and advertising incurred for the processing of subdivision and land developments. Periodically, when the initial escrow deposited by the applicant has been reduced to 50% of its original amount, the Borough shall invoice the applicant for reimbursement and re-establishment of the escrow fee to its original amount. A condition for final approval of each subdivision and land development plan shall be an accounting of said costs expended by the Borough. Should the accounting establish costs in excess of the fees paid, the applicant, prior to final approval and prior to release of any subdivision or land development plan, shall pay to the Borough the difference between actual costs expended by the Borough in processing the application and the amount of any applicable fee or fees paid. In the event that there are insufficient funds in the applicant’s escrow account for payment of a review fee bill, and an applicant has not disputed a review fee bill within the time period set forth in the Pennsylvania Municipalities Planning Code, no further review of the plan will occur until the bill has been paid and the escrow account is replenished.
